

Institut Jules Bordet

Clinical Research Associate (full time)

Job description :

In close collaboration with the (para)medical staff of the department of Nuclear Medicine, you will be responsible for the organization, coordination, data management and reporting of clinical research projects. You will be a major communication link between the Nuclear Medicine Department and the involved clinical research partners (academic or pharmaceutical industry).

You will work on translational research projects which focus specifically on the use of Nuclear Medicine techniques for diagnosis, drug testing, and therapy in Oncology.

The department of nuclear medicine has one PET-CT, two SPECT cameras (of which one is a SPECT-CT camera), and one dedicated high resolution breast gammacamera.

Profile :

- Bachelor / Master degree in (life) sciences
- Experience in clinical cancer research is a plus
- A strong interest in functional imaging techniques (PET/SPECT/MRI)
- Good knowledge of English and French (both oral and written) is essential. Knowledge of Dutch is an asset.
- Strong communication skills
- Proactive, well organized, motivated and dynamic personality
